

Fish Facts & more

Louisiana is rich in natural resources and is a leader in the seafood industry. The commercial fishing industry in Louisiana produces 25% of all seafood in the United States. Learn some interesting facts about seafood, **color the catfish** and draw your own fish.

Catfish have 25,000 tastebuds.

Catfish whiskers are also known as barbels.

Fish breathe by taking water into the mouth and forcing it through the gills.

A female alligator knows when her babies are hatching from their eggs because they make high-pitched noises.

Farm-raised crawfish come in patriotic colors. Brownish-red, white and blue.

Baby alligators are black with yellow stripes.
